### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 30 and 45.

As to claim 30, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“adjusting a position of an objective lens of the measurement head relative to the wafer to be aligned with the selected measurement region imaged by the camera, the translatable measurement head capable of translating the objective lens along a linear axis parallel to a plane of the surface of the wafer”**, in combination with the rest of the limitations of claim 30.

As to claim 45, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“adjusting a position of the measurement head relative to the wafer to be aligned with a measurement location on the wafer”** and **“receiving a reflected portion of the broadband light beam, reflected by the pinhole mirror, to a camera for determining a measurement position relative to the wafer”**, in combination with the rest of the limitations of claim 45.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
